

Feng Shui for modern leaders

In today's volatile business world, your ability to rely on your Self is crucial. Chinese Metaphysics are a unique gateway to get to your sources and to understand the environments that support your growth. Knowing your purpose, creating nurturing spaces and choosing the right timing are key factors for building successful businesses and crafting the lifestyle that truly resonates with you.

I am an Accredited Feng Shui Master by the International Feng Shui Association, Singapore, and a Graduate of the Raymond Lo School of Feng Shui & Destiny, and I also hold a PhD in Organizational Psychology.
