

# Master Mas Kehardtham

Master Mas International | Feng Shui Academy, THAILAND

**M**aster Mas stands out in the forefront of today's greatest Feng Shui Masters. In his quest for the true Feng Shui knowledge, he has dedicated almost three decades of his life researching, learning, testing out theories and decoding hidden secrets of Feng Shui and Chinese metaphysics. As a result, he has brought about many new revelations, viewpoints, and understanding of space, time and qi which is evident in his authoritative '*New I Ching Bagua*' Theory, can combine the Pre-Heaven and Post-Heaven diagrams into one diagram, which leads to a new theory of '*I Ching Flying Stars Feng Shui*', not just ordinary Flying Stars.

For the urban landform theory, He invented secret techniques to turn a three junction into the best Feng Shui. And must more.

He also invented a new Chinese Four Pillars of Destiny theory, starting the new year on December 21-22 of every year, which is the day when the axis of the Northern Hemisphere is tilted the furthest from the sun of the year, and changing the Rat month at the same time, not on December 6-7, like the standard theory, including changing the Rat hours at midnight at the same time as the new day changes, not at 11:00 p.m.

He is also the only known Feng Shui Master who verified the "Auspiciousness of the San Sha Directions Theory" which is a method to change the power of the bad direction to be most auspicious and confirmed it with more than 1,000 real-life case studies achieving spectacular and consistent results.

Despite his many important achievements, he remains humble and modest and continues his quest for the excellence in Feng Shui.
