

Master Marta Pietrzykowska

FS Consulting, POLAND

Master Marta Pietrzykowska is founder of FS Consulting, which celebrated its 20th anniversary in 2024, marking two decades of consulting and Feng Shui teaching across Europe. She holds a Master's degree in Geography from the University of Wrocław and also graduated from the University of Economics. Since the early 1990s, she has been devoted to studying and practicing Feng Shui, BaZi, and the I Ching in renowned Feng Shui schools around the world.

A major turning point in her professional path came in 2004, when she met Grand Master Vincent Koh, founder of the Singapore Feng Shui Centre, under whose personal guidance she deepened her mastery of classical Chinese metaphysics.

For over 12 years, she has also been a publisher, co-creating—together with the UK-based company Dragon and Tiger—the highly acclaimed Feng Shui Tong Shu Calendar, published annually in Poland in both general and personalized BaZi-based editions. Combining academic Western knowledge with Eastern wisdom, she also works professionally in coaching and talent development, helping people discover their potential and align their environments with personal growth. She is also an author and popularizer of Feng Shui and BaZi in various media outlets in Europe. In her daily work, she conducts consultations, workshops, and design projects, helping individuals and organizations create spaces that support health, relationships, and prosperity.
